-

PROFESSIONAL EXPERIENCE

EXL SERVICE | UI Developer → Senior Executive (Business Analytics) – Web/.NET Developer | Apr 2020 – Apr 2024

- Progressed from UI-focused development into broader frontend and .NET application development while working on enterprise-level applications.
- Designed and developed responsive, user-focused web interfaces using HTML5, CSS3, JavaScript, Bootstrap and ASP.NET MVC/Core.
- Worked on the PIMCO Asset Management Web Portal using ASP.NET Core 7.0 MVC, C#, Entity Framework and JavaScript.
- Developed enterprise-level UI from design/sketch concepts with a focus on pixel-perfect implementation, responsive behavior and usability.
- Worked closely with backend developers to integrate REST APIs and support application workflows.
- Used AWS services, including Amazon S3 for enterprise file storage.
- Used GitLab for source control and CI/CD workflows across development and deployment environments.
- Worked on Citi Bank frontend enhancements using JavaScript, including design and development of login and logout pages.
- Contributed to Maestro Marpai Health TPA legacy modernization by resolving UI, SQL/data and cross-browser compatibility issues.
- Replaced legacy VBScript functionality with JavaScript to improve browser compatibility and application functionality.

JBH SKILL CONSULTANT PVT. LTD. | IT System Engineer / CBT Exam Deployment Engineer | 10 Apr 2026 – 09 May 2026

- Deployed and supported computer-based test (CBT) examination environments at examination centers.
- Deployed postgraduate and undergraduate examinations for university examination of Pune and Kolkata.
- Handled system setup, application configuration, troubleshooting and technical coordination during examination deployment. Worked with .NET-based CBT application deployment and resolved environment-level technical issues.

**PECIFIC IT CONSULTING — ASP.NET MVC / UI Developer (CONTRACT) | DEPLOYED AT PATH INFOTECH | NOIDA
Nov 2020 – Mar 2021**

- Joined on a contract engagement and was initially assigned to an ASP.NET MVC project, resolving assigned UI issues and application bugs.

- Subsequently transitioned to an EXL client assignment through Path Infotech, working on a UI/.NET-based application after client system and access provisioning.
- Worked on UI development, defect resolution and maintenance of existing ASP.NET MVC-based applications.

DPH SOFTWARE SERVICES PVT. LTD. | Web Developer | IT Department | 16 Feb 2019 – 31 Oct 2020

- Independently handled web development, website maintenance and server-related responsibilities.
- Developed and designed corporate website and e-commerce web applications using PHP, HTML, CSS3, Bootstrap and MySQL.
- Developed the Ensure Flight booking application for company requirements and independently implemented the application flow.
- Researched and purchased third-party APIs according to company requirements, studied API documentation and implemented API integration.
- Handled GoDaddy server administration, website deployment and creation/configuration of multiple subdomains.
- Designed landing pages, promotional banners and large-format banners for product exhibitions and marketing activities.
- Performed regular website optimization, including image optimization to improve page-loading performance.
- Worked on SEO activities targeting keywords for Ayurveda products and regularly created and published unique content.
- Used Photoshop for website graphics and promotional design requirements.
- Provided internal technical support for employee system issues and participated in interviews for web designer positions.

TRIGYA HEALTH PRODUCT PVT. LTD. | Full Stack Developer / Webmaster / IT Head 16 Dec 2016 – 03 Feb 2019 | Brand: Preserva Wellness

- Worked on the Preserva Wellness website and e-commerce platform, supporting web development, UI, website maintenance and technical operations.
- Handled website/server-related activities and supported multiple web properties and subdomains.
- Worked on website UI, landing pages, promotional banners and graphics.
- Performed website and image optimization activities to improve loading performance.
- Supported SEO and keyword-focused content updates to improve online visibility.
- Used Photoshop for website and promotional design requirements.

ZNSOFTECH PVT. LTD. | Junior Software Engineer | 05 Jul 2015 – 15 Nov 2016

- Worked on ASP.NET web applications and client-facing UI development.
- Resolved critical responsive UI issues, including navigation bar toggle behavior across different viewport sizes.
- Improved mobile-friendly and responsive behavior across application pages.
- Worked on ASPX pages and implemented UI fixes and enhancements based on project requirements.
